Get your learners on track for SQA Exams in 2024

All our papers meet the National Course modification summary: Computing Science. Our papers have been written following the 2022 updated guidance on Identifying A and C marks at all levels. All our papers clearly identify where A marks are present within the paper.

Written by teachers, for teachers

Our writers have been setting, marking and vetting papers for SQA for the last twenty years and more. As teachers, we know what's needed in the classroom which is why we produce not only our exam papers but also PowerPoint presentations to accompany them. We produce two N5 and Higher papers based on requests from schools, so you can assess your learners as you need, through the year.

New Advanced Higher

The 2024 Advanced Higher paper will include assessment of some integration across sections 2 and 3. Our paper is written to the updated Course Assessment Specification for session 2023-24.

Papers you can edit!

You can order a PDF document or a Microsoft Word document that you can edit and change. Every school / college is different so having the flexibility to make changes to meet the needs of your learners is great.

Digital Papers, we've got that covered!

You can order our adapted papers. These give you papers in PDF format to be completed electronically using **Adobe Reader** or **TextHelp Orbit Note (now approved for Chromebooks by SQA)**. These papers also include the MS Word versions of our papers with PowerPoint presentations.

What will you get?

When you download your order, you'll receive:
- A complete SQA style question paper of new questions
- Marking Guidelines and a question matrix showing how the paper is balanced to the mark distribution in the CAS with A and C questions identified.
- A PowerPoint Slide Deck containing the questions and answers to provide feedback to your pupils.

Download your papers

As always, our online store is available so that you can get your papers with the minimum of fuss. Just place your order and use your download code to securely access your files.

Delivery

We are accepting orders now and papers will ship as of 1st October 2023.
