

Our Guarantee

It's not been easy for teachers or students since March 2020. The disruption to learning, the impact of rapid changes to SQA courses and the task of assessing students through the Alternative Certification Model have had an impact on everyone.

We know that these are uncertain times and that changes may still happen in session 2021/22. Should SQA implement changes through the Alternative Certification Model, we will ensure that our papers are updated to follow any guidance issued by SQA, at no cost to you. You'll be able to download updated papers from your account as soon as we make the changes.

Computing Science

We have **two papers** for **National 5**, **two papers** for **Higher** and an **Advanced Higher** paper which can be used as prelims and evidence of student performance.

Each paper matches the current SQA format and includes full marking instructions and a PowerPoint file to be used when providing feedback on the paper to students following the exam.

All papers contain **new sight unseen questions** and are

written by teachers with many years experience of writing and assessing SQA examinations.

Papers you can edit!

You can order a PDF document or a Microsoft Word document that you can edit and change. Every school /college is different so having the flexibility to make changes to meet the needs of your learners is great.

What will you get?

When you download your order, you'll receive:

- A complete SQA style question paper of new questions
- Marking Instructions and a question matrix showing how the paper is balanced to the mark distribution in the CAS.
- A PowerPoint Slide Deck containing the questions and answers to provide feedback to your pupils.

Download your papers

As always, our [online store](#) is available so that you can get your papers with the minimum of fuss. Just place your order and use your download code to securely access your files.

Delivery

We are accepting orders now and papers will ship in October 2021.
