

NEW Advanced Higher Computing Science is here!

And we are ready! We've written a new paper, building on the format of the new paper and the coverage of the areas of study. The new AH paper is 80 marks and is completed in 2 hrs 30 mins.

Computing Science

To give you flexibility when preparing for national assessments, we've created **two papers** for **Higher** and **National 5**.

Each paper matches the latest SQA format and includes full marking instructions and a PowerPoint file to be used when providing feedback on the paper to students following the exam.

Papers you can edit!

You can order a PDF document or a Microsoft Word document that you can edit and change. Every school /college is different so having the flexibility to make changes to meet the needs of your learners is great.

Our unique table based layout means that you can

select and edit portions of the paper without affecting the presentation of the rest of the paper.

Download your papers

As always, our online store is available so that you can get your papers with the minimum of fuss. Just place your order and use your download code to securely access your files.

Adapted Papers

We've brought back adapted papers for 2019/2020. These write on PDF papers can be completed electronically by students as part of special examination arrangements.

If you order an Adapted Paper you will receive the Microsoft Word Version, the Adapted PDF paper and the PowerPoint file for reviewing the paper with students once it has been completed.

20 Years of Serving Scottish Education

We are celebrating our twentieth year of providing prelim examination papers to Scottish Educators. Thank you for your support.
